SAKÈ FLIGHT

Senjo Craft Lab Sake Flight

The Senjo Craft Lab Series showcases the profound impact of yeasts on Sake flavour by brewing six variations of the same base Sake using different yeast strain. Made with Hitogokochi rice, polished to 60%, this experimental lineup reveals how yeasts shape aroma, taste and texture. The strains, originally isolated between 1906 and 1935, offering a rare glimpse into the flavors of traditional sake before modernization. Each variation presents distinct characteristics, making it an insightful experience for sake enthusiasts.
